SKILLS

- Mobile Development: Android, Flutter
- Languages: Kotlin, Java, Dart
- Architecture: MVVM, MVC, Clean Architecture, SOLID Principles
- UI: Jetpack Compose, XML, Flutter Widgets, Material Design
- State Management: Riverpod, LiveData
- Jetpack: ViewModel, Room, Paging 3, Navigation Component
- Async & Reactive: Coroutines, Flow
- Backend & APIs: REST APIs, Retrofit
- Firebase: Authentication, Crashlytics, Cloud Messaging, Analytics
- Payments: Stripe, Cashfree, Google Play Billing
- Tools: Git, GitHub, Android Studio
- Other: Push Notifications, Socket.IO, Location-Based Services, In-App Messaging

PROFILE

Senior Android / Flutter Application Developer with **6+ years of total experience (5 years Android + 1 year Flutter)** building scalable, high-performance mobile applications for startups and enterprise clients. Strong expertise in **Android (Kotlin, Java, Jetpack Compose, MVVM, Clean Architecture) and Flutter (Dart, Riverpod, SOLID principles)**. Experienced in location-based apps, payment & reward systems, REST APIs, Firebase, real-time features, and full **Play Store deployment lifecycle**. Adept at translating business requirements into reliable mobile solutions for global markets.

EXPERIENCE

Excellent WebWorld

NOV 2022 - PRESENT

Senior Mobile Application Developer – Android & Flutter

- Leading Android and Flutter application development for scalable, business-critical mobile products.
- Designing robust architectures using MVVM, Clean Architecture, Coroutines (Android), and Riverpod (Flutter).
- Developing location-aware, payment-enabled, and real-time applications.
- Improving app performance and stability using Firebase Crashlytics, analytics, and profiling tools.
- Conducting code reviews, enforcing best practices, and mentoring junior developers.
- Collaborating with product, backend, and QA teams in Agile/Scrum environments.

SpryBit SoftLab

Aug 2021 – Nov 2022

Android Developer

- Developed feature-rich Android applications using Kotlin & Java.
- Integrated RESTful APIs, local databases (Room, SQLite), and real-time communication.
- Implemented dynamic links, in-app messaging, push notifications, and background services.
- Enhanced app stability through extensive bug fixing and module optimization.
- Collaborated with backend and design teams for seamless user experiences.

Pixster Studio

Apr 2019 – Aug 2021

Junior Android Developer

- Built and maintained Android applications from concept to Play Store release.
- Implemented third-party SDKs, payment integrations, and authentication systems.
- Gained strong hands-on experience in UI/UX implementation, API integration, and app lifecycle management.
- Assisted in deploying multiple apps on the Google Play Store, ensuring policy compliance.

KEY PROJECTS

Tawla – Restaurant Promo, Rewards & Discovery Application (Flutter)

Flutter | Dart | MVVM | Riverpod | SOLID
Location-based restaurant discovery & loyalty platform.

- Promo code claim & reward point redemption
- Filters by mood, cuisine & location
- Clean, testable Flutter architecture

Asistee – Service Booking Platform (Japan Market)

Android | Kotlin | MVVM | Stripe | Firebase
Service booking app for cleaning, painting & AC services.

- Real-time chat, notifications & scheduling
- Secure Stripe payments
- Scalable MVVM architecture

Keto Manager – Diet & Subscription App

Android | Java | Firebase | Payments
Health & diet tracking app with monetization.

- In-app purchases & subscriptions
- Speech-based meal logging
